KWET
Inspired by the traditional paper lantern, KWET is a modern take on the classic design. It features a unique, multi-layered structure that creates a soft, diffused glow. KWET is available in two sizes: 15cm and 25cm. It is made from high-quality, sustainable materials and is easy to install.

GLOWING ACOUSTIC
GLOWING ACOUSTIC is a modern, circular ceiling panel that combines style and functionality. It features a unique, multi-layered structure that creates a soft, diffused glow. GLOWING ACOUSTIC is available in two sizes: 60cm and 90cm. It is made from high-quality, sustainable materials and is easy to install.

STEALTH
STEALTH is a modern, square ceiling panel that combines style and functionality. It features a unique, multi-layered structure that creates a soft, diffused glow. STEALTH is available in two sizes: 60cm and 90cm. It is made from high-quality, sustainable materials and is easy to install.

REV
REV is a modern, circular ceiling panel that combines style and functionality. It features a unique, multi-layered structure that creates a soft, diffused glow. REV is available in two sizes: 60cm and 90cm. It is made from high-quality, sustainable materials and is easy to install.

LINER
LINER is a modern, linear ceiling panel that combines style and functionality. It features a unique, multi-layered structure that creates a soft, diffused glow. LINER is available in two sizes: 120cm and 180cm. It is made from high-quality, sustainable materials and is easy to install.
