

To our valued industry partners:

Online Power's focus has always been on the health and safety of our employees, customers and communities. Since we are a manufacturer of Life Safety Equipment, **the entire OnLine Power Team will remain fully operational with ALL our departments** working onsite during normal business hours. Steps are in place to assure the health and safety of our employees, our customers, and our community. Please be assured that the normal supply chain will remain UNINTERUPED, thus assuring that we can still produce our products in a timely manner, with no lapse in lead times.

With the current circumstances surrounding the Coronavirus, Online Power will be suspending all office visits to our Los Angeles California facility, as well as all outside visits by our sales team. We are, however, very excited to announce that with today's technology, we have several available options for virtual meetings. OnLine Power will be extending invitation's for online product demonstrations, remote training, delivered Snack & Learns with you, specifier, and Distributors. We see this as an opportunity to connect one another during this unruly time of social isolation.

There is no question that this is a time of great uncertainty. While we don't know exactly what the future may bring, we do know that by sticking together and supporting each other, we will emerge from this stronger than before!

Thank you for your loyalty, and from all of us here @ OnLine Power, we wish the best for you and your family.

Sincerely,

The OnLine Power Family
