ARTIC ARL1 AND DOS LINEAR BY DELRAY

New Products

INTRODUCING
ESSENCE
LIGHT CHANNELS & LED TAPE

EXPLORE ESSENCE
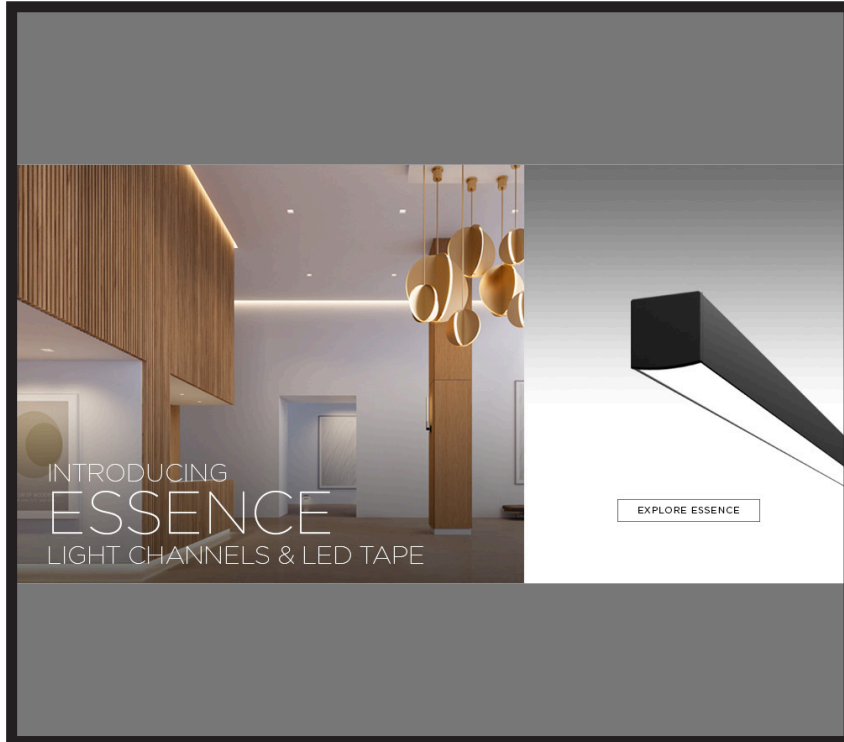

Essence by Tech Lighting

ESSENCE tapelight offers excellent light quality with up to 1-step binning, is easy-to-specify to the inch, and has industry defining special installation features for a sleek and modern look.

ESSENCE architectural light channels provide made-to-order, specification grade, high color quality 24VDC linear task and accent lighting solutions. Backed by short lead times and Tech Lighting's impeccable service, ESSENCE is easy to specify, easy to install and blends seamlessly into the architectural design to elevate any space.
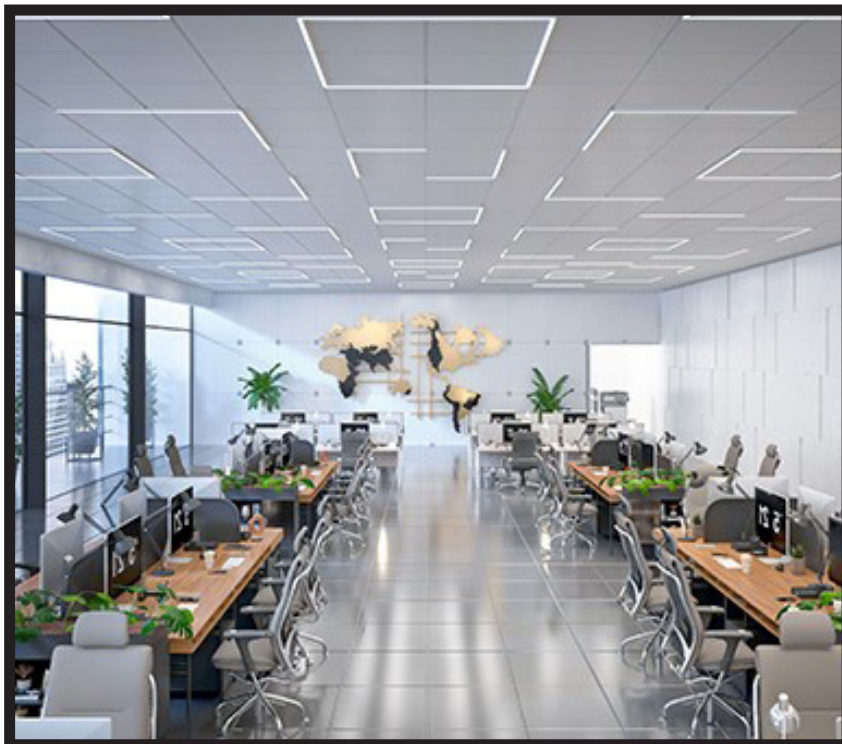

GeoForm by Pure Edge Lighting

The new Cirrus T-Bar Geo Form system bids ado to boring, old ceiling grids. This discrete system forms continuous, linear light patterns utilizing standard T-bars. Choose from nine pre-formed shapes including squares, rectangles, L's, T's, X's and more!

Installation is a breeze with the "plug-and-play" Cirrus T-Bar Geo Form system. Fixtures blend seamlessly along the width of the T-bar. A choice of seven finishes allows you to match the T-bar or make a bold statement with a contrasting finish.

New Products

Razer by Beta Calco

Introducing Razer by Beta Calco. Razer is available in three elegant shapes to blend seamlessly into any building entry or facade.

- Sleek robust design

- Available with 2 beam angles, 3° narrow and 75° wide

- Light distribution in up to four directions

- Ideally suited for entryways and building facades

Mill by Eureka

Introducing Mill by Eureka. Absorb sound in common and public areas with felted luminaires. With multiple sizes, colors and mounting options as well as optional uplight, Mill will help with volume control while adding a stunning design element to the decor.

- 14" diameter and three height choices – 14"H, 24.5"H and 35"H

- Two mounting types – suspension and ceiling surface

- Optional uplight

In addition to its 4 standards acoustic material colors, Mill is also offered in an additional 26 premium colors.

New Products

DART
ENHANCEMENTS

TARGETTI

Now available in 6 finishes:
- Ferrite Grey
- Bronze
- Heritage Brown
- Plaster White Textured
- Deep Black Textured
- Sandstone Grey

NEW

New Narrow Asymmetric Optic

For more comfortable and controlled beams within the DARTMedium Range.

NEW

Up to 20% Efficiency Increase

Increased efficiency for DART Range.

Dart by Targetti

Whatever the target is, light it with DART by Targetti! A complete range of professional floodlight projectors available with a wide variety of optical and installation accessories. With recent enhancements to the range including new finishes, a new narrow symmetric optic, and increased efficiencies, the DART range just became even more versatile.

Another new addition to the DART range is pole mounting installation. Available for all 3 fixture sizes, poles are offered in 13', 16', 19', and 22' heights with the ability to install 1 to 3 fixture brackets. Up to 12 fixtures can be mounted on one pole depending on the height of the pole and size of the fixtures.

BLEND IN
### Textured Finishes Inspired by Nature

Inspired by Nature by Ligman

Ligman's Inspired by Nature finishing is a unique system of decorative powder coating. Our metal decoration process can easily transform the appearance of metal or aluminum product. This patented technology enables the simulation of wood grain, and even marble or granite finish.

The wood grain is so realistic that it's almost undistinguishable from real wood, even from a close visual inspection. The system of coating permeates the entire thickness of the coat and as a result, the coating cannot be removed by normal rubbing, chipping, or scratching.

New Products

We have something to **Declare.**
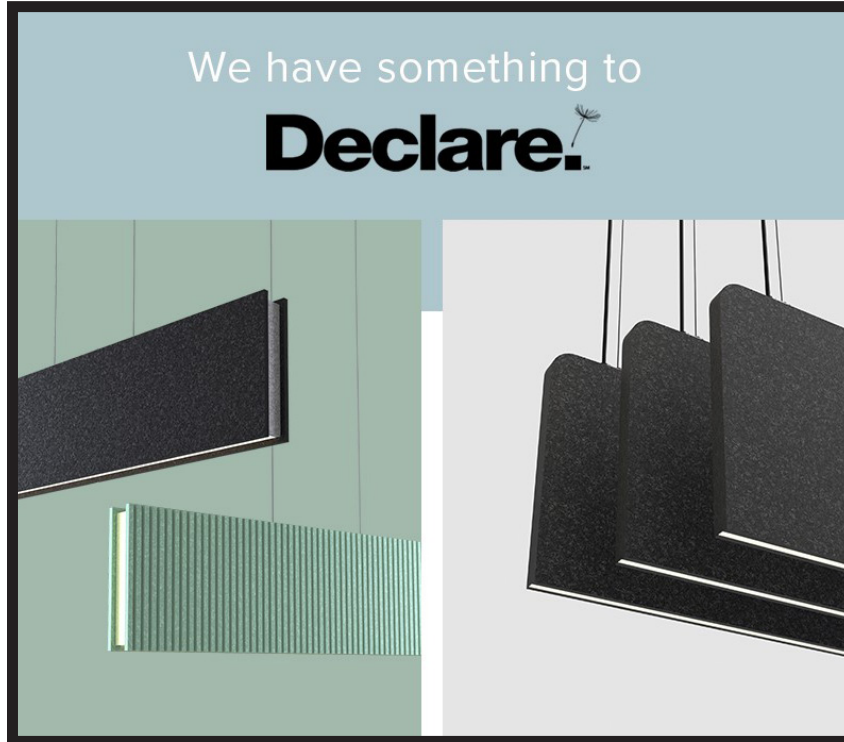

Linea and Blade by Luxxbox

Luxxbox is pleased to announce that Linea and Blade acoustic pendants are now Declare listed.

A Declare label essentially answers three questions in regards to a product;
1) Where does a product come from?
2) What is it made of?
3) Where does it go at the end of its life?

Through self-disclosure of ingredients, sourcing, and life cycle information, Declare is a tool to show customers that a product is one that they can trust.

nLight® AIR Autonomous Bridging Technology
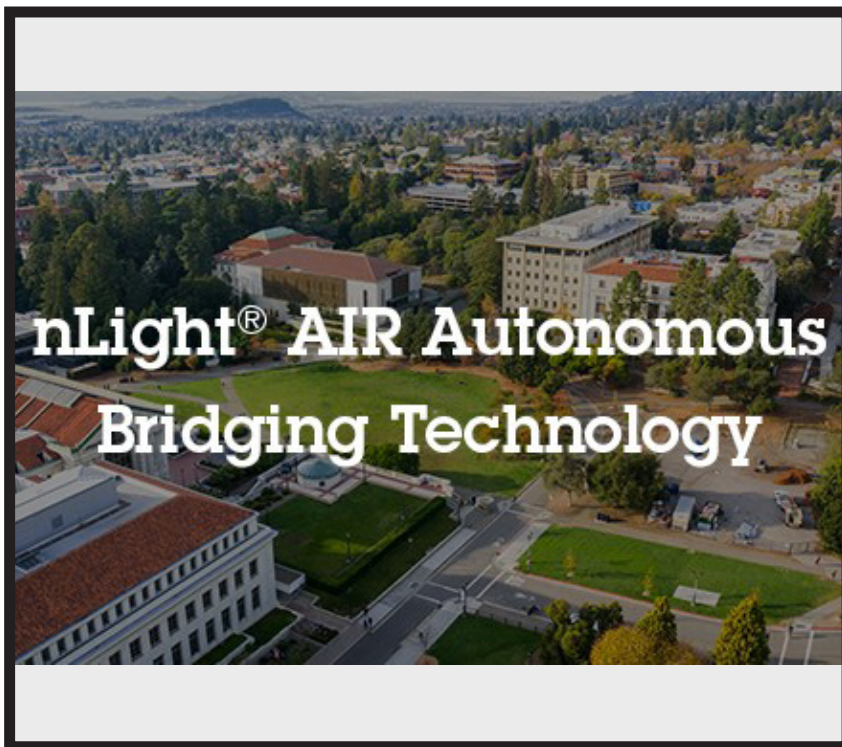

Autonomous Bridging by nLight

nLight® AIR eliminates the guesswork from your wireless networked lighting controls designs and installation by using our autonomous bridging technology to increase range and reliability. Utilizing networked groups, nLight AIR expands its star topology multiple layers, reliably "bridging" even more end devices to a system controller.

- Communicate farther, faster
- Communicate around corners
- No additional hardware needed
- Intelligent network – autonomous bridging technology
- Get off the site more quickly
