

CHOREO WALL-MOUNT ARCHITECTURAL CONTROLLER

1

Models shown: 1. PWCHOREO WM [xxxx]

WARRANTY

3-year limited warranty. Complete warranty terms located at: <https://www.acuitybrands.com/support/warranty>

NOTE

Actual performance may differ as a result of end-user environment and application. Specifications subject to change without notice.

OVERVIEW

Choreo™ provides full-featured, stand-alone programming and playback for dynamic DMX512 lighting systems, all in a three-gang wall box.

Choreo's natural language interface makes the selection of lights, adjustment of their attributes, and the recording of reference libraries, memories and cues fast and simple.

Once programmed, use the screen as a virtual button/slider station, or use Pathway NSB Wall Stations (PWWSI NPOE or PWWSI N485 series) to trigger memories or cues. Other events can be triggered from the astronomical clock, DMX or Network DMX, contact closures or the Lua API via RS232 or Telnet.

FEATURES

- Up to 2 Universes (1024 channels) of DMX512 output directly from Choreo
- Silent, capacitive touch screen operation
- Edit all show attributes including color, intensity, position, and timing from the touchscreen without a computer or console
- Supports E1.31 sACN, Pathway ssACN, Pathport Protocol, Art-Net and KINET DMX-over-Ethernet protocols
- Natural language control uses "real world" terms and labels rather than slot numbers and data-level values
- No hard limits on the number of memories, cues, chases or playbacks
- Continually updated fixture library, currently with over 3,600 commonly available, multi-attribute lights
- Timecode-based playback and astronomical or time clock event triggering
- Context-sensitive Help Overlays provide assistance without interrupting workflow
- USB port for updates and showfile backup
- Support for remote VNC
- Web server for alternate method of backup, restore and software upgrade
- Seamless file transfer with Cognito² lighting consoles over the network; show files are compatible between Choreo and Cognito²
- Free downloadable off-line editor (OLE) for Windows and macOS
- Lua interpreter for advanced scripting and remote triggering
- Power-over-Ethernet (PoE) operation simplifies installation, optionally powered by auxiliary 24VDC input
- Rack-mount adapter and Desktop Console accessories available
- Also available in DIN-mount (PWCHOREO DIN) form factor

ORDERING INFORMATION

PWCHOREO		EXAMPLE: PWCHOREO WM 1024	
Series	Form Factor	Model	
PWCHOREO Pathway Choreo Theatrical Console	WM Wall-mount	512	512 Channels
		1024	1024 Channels

Accessories

PWPWR DIN TERM 50W 24VDC	Power Supply, DIN-mount, Compression Fit Terminal, 50 Watts, 24 Volts DC
PWPWR DIN TERM 100W 24VDC	Power Supply, DIN-mount, Compression Fit Terminal, 100 Watts, 24 Volts DC
PWACC ADD512	Pathway Accessory, Add 512 Channels
PWACC CHORDT	Pathway Accessory, Choreo Desktop Console
PWACC CHORRM	Pathway Accessory, Choreo 4RU rack panel, with one 3-gang position

SPECIFICATIONS

Electrical

Input Ratings PoE Class 3 device
 24VDC auxiliary power input
